

# FPF

## 母猪精准饲喂场景方案

### Accurate sow feeding solution

AI精喂小钢炮, 省料还增效!  
AI precision feeder saves feed and increases the benefit!

# 智能化母猪精准饲喂管理 Intelligent management of accurate sow feeding

## 精准匹配，颗颗高效！ Accurate matching improves the efficiency

一目了然展示个体猪只实时生产数据  
Display real-time production data of individual pigs clearly

猪只数据实时采集，实现动态显示餐次饲喂量、料桶余料量，数据自动上传系统，系统根据数据生成个体营养报告，调整饲喂量，实现营养均衡  
Acquire pig data in real time, display feed quantity and remainder quantity in the bucket dynamically, and upload data to the system automatically. The system will generate the nutrition report of individual pigs based on data and adjust the feed quantity to realize balanced nutrition

### 怀孕母猪 Pregnant sow

- 定时定量，精准饲喂  
Fixed time and quantity, accurate feeding
- 猪只个体不同，需求量不同  
Demand of different pigs is different
- 调整饲喂量，调膘效率提升  
Adjust feed quantity to improve fat regulation efficiency
- 满足猪只差异化饲喂需求  
Meet feeding needs of different pigs

智能超声一体机  
Intelligent ultrasonic AIO

### 哺乳母猪 Sucking sow

- 自由采食，想吃多少就吃多少  
Feed freely without feed intake limitation
- 余料检测，减少饲料浪费  
Remainders are detected to reduce feed waste
- 支持水混料，提高泌乳性能  
Mix water and feed to improve milkability
- 最大限度让哺乳母猪吃好喝好  
Ensure that lactating sows eat and drink well to the greatest extent

精喂仪 Precision feeder

饮水宝 Drinking machine

余料宝 Remainders machine

#### 分娩舍

##### Farrowing room

- ① 提人效：  
Improve labor efficiency  
节省 50-90 分钟 / 天 (对比传统)  
Save 50-90min/day (compared with traditional methods)  
节省 10-40 分钟 / 天 (对比半自动)  
Save 10-40min/day (compared with semi-automatic method)  
节省 2-10 分钟 (对比智能)  
Save 2-10min/day (compared with intelligent method)
- ② 提采食:  $\geq 0.30\text{kg}$  / 天 / 头  
Increase feed intake:  $\geq 0.30\text{kg/day/pig}$
- ③ 提断重:  $0.2-0.5\text{kg}$  / 头  
Increase weight of weaned piglets: 0.2-0.5kg/piglet
- ④ 减少次品率: **0.5-2%**  
Reduce defective rate: 0.5-2%

#### 怀孕舍

##### Pregnancy room

- ① 省饲料: 每头  $0.1-0.2\text{kg}$  / 天  
Save feed: 0.1-0.2kg/day/pig
- ② 窝均产健仔数: 提升 **0.5-1** 头  
Average number of healthy piglets per brood: Increase 0.5-1 piglets

#### 省人工

##### Save labor

- 1 千头母猪省 1-2 人  
Save 1-2 persons/1000 sows  
(配怀 / 产房全上)  
(Breeding and pregnancy piggery, delivery room)
